

ID	Year	Author	Title
1	2011	Moore, Louis Lee, Clark, and Conway	In defense of the personal/impersonal distinction in moral psychology research: Cross-cultural
2	2011	Kerimi, Montgomery, and Zakay	Coming close to the ideal alternative: The concordant-ranks strategy
3	2011	Kutzner, Vogel, Freytab, and Fiedler	Contingency inferences driven by base rates: Valid by sampling
4	2011	Kim and Kim	A proximity effect in adults' contamination intuitions
5	2011	Galak, Kruger, and Loewenstein	Is variety the spice of life? It all depends on the rate of consumption
6	2011	White, Hafenbrädl	Are groups more likely to defer choice than their members?
7	2011	Appelt, Milch, Handgraaf, and Weber	The Decision Making Individual Differences Inventory and guidelines for the study of individual
8	2011	Hess, Visschers, and Siegrist	Risk communication with pictographs: The role of numeracy and graph processing
9	2011	Maaravi, Pazy, and Ganzach	Pay as much as you can afford: Counterpart's ability to pay and first offers in negotiation
10	2011	Müller-Trede	Repeated judgment sampling: Boundaries
11	2011	Ayal, Hochman, and Zakay	Two sides of the same coin: Information processing style and reverse biases
12	2011	Lai	Maximizing and customer loyalty: Are maximizers less loyal?
13	2011	Rudski, Osei, Jabonson, and Lynch	Would you rather be injured by lightning or a downed power line? Preference for natural hazards
14	2011	Rozin et al.	Nudge to nobesity I: Minor changes in accessibility decrease food intake
15	2011	Dayan and Bar-Hillel	Nudge to nobesity II: Menu positions influence food orders
16	2011	Raeva, Van Dijk, and Zeelenberg	How comparing decision outcomes affects subsequent decisions: The carry-over of a
17	2011	Aczel, Lukacs, Komlos, and Aitken	Unconscious intuition or conscious analysis? Critical questions for the Deliberation-Without
18	2011	Marewski, Pohl, and Vitouch	Recognition-based judgments and decisions: What we have learned (so far)
19	2011	Ayton, Önköl, and McReynolds	Effects of ignorance and information on judgments and decisions
20	2011	Goldstein and Gigerenzer	The beauty of simple models: Themes in recognition heuristic research
21	2011	Hauser	A marketing science perspective on recognition-based heuristics (and the fast-and-frugal
22	2011	Newell	Recognising the recognition heuristic for what it is (and what it's not)
23	2011	Pachur	The limited value of precise tests of the recognition heuristic
24	2011	Pohl	On the use of recognition in inferential decision making: An overview of the debate
25	2011	Marewski and Mehlhorn	Using the ACT-R architecture to specify 39 quantitative process models of decision making
26	2011	Milosavljevic, Koch, and Rangel	Consumers can make decisions in as little as a third of a second
27	2011	Scholl and Greifeneder	Disentangling the effects of alternation rate and maximum run length on judgments of
28	2011	Krumer, Shavit, and Rosenboim	Why do professional athletes have different time preferences than non-athletes?
29	2011	Locey, Jones, and Rachlin	Real and hypothetical rewards in social discounting
30	2011	Rim, Turner, Betz, and Nygren	Studies of the dimensionality, correlates, and meaning of measures of the maximizing tendency
31	2011	Choe and Min	Who makes utilitarian judgments? The influences of emotions on utilitarian judgments
32	2011	Shallow, Iliev, and Medin	Trolley problems in context

33	2011 Kriss, Loewenstein, Wang, and Weber	Behind the veil of ignorance: Self-serving bias in climate change negotiations
34	2011 Soyer and Hogarth	The size and distribution of donations: Effects of number of recipients
35	2011 Carroll, White, and Pahl	The impact of excess choice on deferment of decisions to volunteer
36	2011 Dickert, Kleber, Peters, and Slovic	Numeracy as a precursor to pro-social behavior: The impact of numeracy and presentation format
37	2011 Leite and Ratcliff	What cognitive processes drive response biases? A diffusion model analysis
38	2011 Swirsky, Fernbach, and Sloman	An illusion of control modulates the reluctance to tempt fate
39	2011 Evans, Dillon, Goldin, and Krueger	Trust and self-control: The moderating role of the default
40	2011 Glöckner and Hilbig	Editorial: Methodology in judgment and decision making research
41	2011 Glöckner and Betsch	The empirical content of theories in judgment and decision making: Shortcomings and remedies
42	2011 Katsikopoulos and Lan	Herbert Simon's spell on judgment and decision making
43	2011 Mecklenbeck, Kühberger, and Ranyard	The role of process data in the development and testing of process models of judgment
44	2011 Franco-Watkins and Johnson	Applying the decision moving window to risky choice: Comparison of eye-tracking
45	2011 Koop and Johnson	Response dynamics: A new window on the decision process
46	2011 Doyle, Chen, and Savani	New designs for research in delay discounting
47	2011 Murphy, Ackermann, and Handgraaf	Measuring Social Value Orientation
48	2011 Jekel, Fiedler, and Glöckner	Diagnostic Task Selection for Strategy Classification in Judgment and Decision Making
49	2011 Davis-Stober and Brown	A shift in strategy or "error"? Strategy classification over multiple stochastic specifications
50	2011 Moshagen and Hilbig	Methodological notes on model comparisons and strategy classification: A falsificationist
51	2011 Broomell, Budescu, and Por	Pair-wise comparisons of multiple models
52	2011 Lee and Newell	Using hierarchical Bayesian methods to examine the tools of decision-making
53	2011 Matthews	What might judgment and decision making research be like if we took a Bayesian approach to
54	2011 Budescu and Johnson	A model-based approach for the analysis of the calibration of probability judgments
55	2011 Renkewitz, Fuchs and Fiedler	Is there evidence of publication biases in JDM research?
56	2012 Drichoutis et al.	When a risky prospect is valued more than its best possible outcome
57	2012 Newman and Mochon	Why are lotteries valued less? Multiple tests of a direct risk-aversion mechanism
58	2012 Cokely et al.	Measuring Risk Literacy: The Berlin Numeracy Test
59	2012 Turner, Rim, Betz, and Nygren	The Maximization Inventory
60	2012 Starcke, Ludwig, and Brand	Anticipatory stress interferes with utilitarian moral judgment
61	2012 Dhingra, Gorn, Kener, and Dana	The default pull: An experimental demonstration of subtle default effects on preferences
62	2012 Hoerger	Coping strategies and immune neglect in affective forecasting: Direct evidence
63	2012 Birnbaum	A statistical test of independence in choice data with small samples
64	2012 Sheikh, Ginges, Coman, and Atran	Religion, group threat and sacred values
65	2012 Meder and Nelson	Information search with situation-specific reward functions

66	2012 Bar-Hillel, Maharshak, Moshinsky, and Nofech	A rose by any other name: A social-cognitive perspective on poets and poetry
67	2012 Peer and Solomon	Professionally biased: Evidence for misestimations of driving speed, journey time
68	2012 Reed, Mikels, and Löckenhoff	Choosing with confidence: Self-efficacy and preferences for choice
69	2012 Hu and Xie	Validation of the Domain-Specific Risk-Taking Scale in Chinese college students
70	2012 Butler et al.	A medical risk attitude subscale for DOSPERT
71	2012 Chuang, Kao, Cheng, and Chou	The effect of incomplete information on the compromise effect
72	2012 Brown	Decision theory as an aid to private choice
73	2012 Krosch, Figner, and Weber	Choice processes and their post-decisional consequences in morally conflicting decisions
74	2012 Svenson et al.	Effects of main actor, outcome and affect on biased braking speed judgments
75	2012 Ashby, Dickert, and Glöckner	Focusing on what you own: Biased information uptake due to ownership
76	2012 Falzer and Garman	Image Theory's counting rule in clinical decision making: Does it describe how clinicians
77	2012 Kogut and Dahan	Do you look forward to retirement? Motivational biases in pension decisions
78	2012 Shalvi	Dishonestly increasing the likelihood of winning
79	2012 Martinsson, Myrseth, and Wollbrant	Reconciling pro-social vs. selfish behavior: On the role of self-control
80	2012 Kudryavtsev and Pavlowsky	Description-based and experience-based decisions: individual analysis
81	2012 Reyna	A new intuitionism: Meaning, memory, and development in Fuzzy-Trace Theory
82	2012 Lee and Zhang	Evaluating the coherence of Take-the-best in structured environments
83	2012 Ettlin and Hertwig	Back or to the future? Preferences of time travelers
84	2012 Weber and Tan	Ambiguity aversion in a delay analogue of the Ellsberg Paradox
85	2012 Stillwell and Tunney	Individuals' insight into intrapersonal externalities
86	2012 Birnbaum and Bahra	Separating response variability from structural inconsistency to test models of risky
87	2012 Rubaltelli, Dickert, and Slovic	Response mode, compatibility, and dual-processes in the evaluation of simple gambles
88	2012 Huang and Zeelenberg	Investor regret: The role of expectation in comparing what is to what might have been
89	2012 Ball	Not all streaks are the same: Individual differences in risk preferences during runs of gains
90	2012 Harinck, Van Beest, Van Dijk, and Van Zeeland	Measurement-induced focusing and the magnitude of loss aversion: The difference between
91	2012 Pighin et al.	Decision making under hypoxia: Oxygen depletion increases risk seeking for losses but
92	2012 Martins et al.	Atypical moral judgment following traumatic brain injury
93	2012 Hill	Cognition in the woods: Biases in probability judgments by search and rescue planners
94	2012 Cheng, Chang, Chuang, and Yu	The impact of purchase quantity on the compromise effect: The balance heuristic
95	2012 Pettibone	Testing the effect of time pressure on asymmetric dominance and compromise decoys in choice
96	2012 Birnbaum and Bahra	Testing transitivity of preferences using linked designs
97	2012 Senecal, Wang, Thomson, and Kable	Normative arguments from experts and peers reduce delay discounting
98	2012 Buratti and Allwood	Improved realism of confidence for an episodic memory event

99	2012 Passerini, Macchi, and Bagassi	A methodological approach to ratio bias
100	2012 Choshen-Hillel and Yaniv	Social preferences shaped by conflicting motives: When enhancing social welfare creates
101	2012 Gong and Medin	Construal levels and moral judgment: Some complications
102	2012 Verrier	Evidence for the influence of the mere-exposure effect on voting in the Eurovision Song Contest
103	2012 Weinhardt, Morse, Chimeli ,and Fisher	An item response theory and factor analytic examination of two prominent maximizing tendency
104	2012 Handgraaf et al.	Web-conferencing as a viable method for group decision research
105	2012 Shahrabani, Benzion, Rosenboim, and Shavit	Does moving from war zone change emotions and risk perceptions? A field study of
106	2012 Schurr, Ritov, Kareev, and Avrahami	Is that the answer you had in mind? The effect of perspective on unethical behavior
107	2012 Roets, Schwartz, and Guan	The tyranny of choice: a cross-cultural investigation of maximizing-satisficing effects on
108	2012 Keinan and Bereby-Meyer	“Leaving it to chance”—Passive risk taking in everyday life
109	2012 Szrek, Chao, Ramlagan, and Peltzer	Predicting (un)healthy behavior: A comparison of risk-taking propensity measures
110	2012 Lehner, Michelson, Adelman, and Goodman	Using inferred probabilities to measure the accuracy of imprecise forecasts
111	2012 Eriksson and Simpson	What do Americans know about inequality? It depends on how you ask them
112	2012 Eriksson	The nonsense math effect
113	2012 Shani, Van de Ven, and Zeelenberg	Delaying information search
114	2012 Rose, Windschilt, and Smith	Debiasing egocentrism and optimism biases in repeated competitions
115	2012 Sundali, Safford, and Croson	The impact of near-miss events on betting behavior: An examination of casino rapid roulette play
116	2012 Nieuwenstein and Van Rijn	The unconscious thought advantage: Further replication failures from a search for confirmatory
117	2013 Persoskie	How well can adolescents really judge risk? Simple, self reported risk factors out-predict teens
118	2013 Reyniers and Bhalla	Reluctant altruism and peer pressure in charitable giving
119	2013 Colby and Chapman	Savings, subgoals, and reference points
120	2013 Kadane and Fischhoff	A cautionary note on global recalibration
121	2013 Marcatto, Rolison and Ferrante	Communicating clinical trial outcomes: Effects of presentation method on physicians' evaluations
122	2013 Thoma and Williams	The devil you know: The effect of brand recognition and product ratings on consumer choice
123	2013 van Wolferen, Inbar and Zeelenberg	Magical thinking in predictions of negative events: Evidence for tempting fate but not for a
124	2013 Cha, Choi, Guo, Regenwetter and Zwilling	Reply: Birnbaum's (2012) statistical tests of independence have unknown Type-I error rates and
125	2013 Duffy and Smith	Preference for increasing wages: How do people value various streams of income?
126	2013 Hueffer, Fonseca, Leiserowitz and Taylor	The wisdom of crowds: Predicting a weather and climate-related event
127	2013 Peer and Gamliel	Pace yourself: Improving time-saving judgments when increasing activity speed
128	2013 Doyle	Survey of time preference, delay discounting models
129	2013 Connolly, Reb and Kausel	Regret salience and accountability in the decoy effect
130	2013 Peng, Miao and Xiao	Why are gainers more risk seeking
131	2013 van de Calseyde, Keren and Zeelenberg	The insured victim effect: When and why compensating harm decreases punishment

132	2013 Tykocinski	The insurance effect: How the possession of gas masks reduces the likelihood of a missile attack
133	2013 Huang, Wood, Berger and Hanoch	Risky choice in younger versus older adults: Affective context matters
134	2013 Haran, Ritov and Mellers	The role of actively open-minded thinking in information acquisition, accuracy, and calibration
135	2013 Felsen, Castelo and Reiner	Decisional enhancement and autonomy: public attitudes towards overt and covert nudges
136	2013 Ert and Erev	On the descriptive value of loss aversion in decisions under risk: Six clarifications
137	2013 Hardisty, Thompson, Krantz and Weber	How to measure time preferences: An experimental comparison of three methods
138	2013 Stone, Choi, de Bruin and Mandel	I can take the risk, but you should be safe: Self-other differences in situations involving
139	2013 Greenberg	When imagining future wealth influences risky decision making
140	2013 Söllner, Bröder and Hilbig	Deliberation versus automaticity in decision making: Which presentation format features
141	2013 Kämmer, Gaissmaier and Czienskowski	The environment matters: Comparing individuals and dyads in their adaptive use
142	2013 Rinne and Mazzocco	Inferring uncertainty from interval estimates: Effects of alpha level and numeracy
143	2013 Juanchich, Teigen and Gourdon	Top scores are possible, bottom scores are certain (and middle scores are not worth mentioning)
144	2013 Olsen	Leftmost-digit-bias in an enumerated public sector? An experiment on citizens' judgment of
145	2013 Chiou and Lee	Enactment of one-to-many communication may induce self-focused attention that leads to
146	2013 Mussel, Göritz and Hewig	The value of a smile: Facial expression affects ultimatum-game responses
147	2013 Bavolar	Validation of the Adult Decision-Making Competence in Slovak students
148	2013 Norton and Ariely	American's desire for less wealth inequality does not depend on how you ask them
149	2013 Eriksson and Simpson	The available evidence suggests the percent measure should not be used to study inequality
150	2013 Markowitz, Slovic, Västfjäll and Hodges	Compassion fade and the challenge of environmental conservation
151	2013 Kahan	Ideology, motivated reasoning, and cognitive reflection
152	2013 Du, Liu, Xu, Rao, Jiang and Li	When uncertainty meets life: The effect of animacy on probability expression
153	2013 Rozin, Guillot, Fincher, Rozin and Tsukayama	Glad to be sad, and other examples of benign masochism
154	2013 Giacobelli, Simpson, Dalal, Randolph and Holland	Maximizing as a predictor of job satisfaction and performance: A tale of three scales
155	2013 Rosman, Garcia, Lee, Butler and Schwartz	DOSPERS+M: A survey of medical risk attitudes in the United States
156	2013 Gamliel and Kreiner	Is a picture worth a thousand words? The interaction of visual display and attribute
157	2013 Eriksson, Svenson and Eriksson	The time-saving bias: Judgements, cognition and perception
158	2013 Ejova, Navarro and Delfabbro	Success-slope effects on the illusion of control and on remembered success-frequency
159	2013 Dana, Dawes and Peterson	Belief in the unstructured interview: The persistence of an illusion
160	2013 Almy and Krueger	Game interrupted: The rationality of considering the future
161	2013 Koop	An assessment of the temporal dynamics of moral decisions
162	2013 Rubenstein	Response time and decision making: An experimental study
163	2013 Dhami and Mandel	How do defendants choose their trial court? Evidence for a heuristic processing account
164	2013 Chaxel, Russo and Kerimi	Preference-driven biases in decision makers' information search and evaluation

165	2013 McLaughlin and Somerville	Choice blindness in financial decision making
166	2013 Matton, Raufaste and Vautier	External validity of individual differences in multiple cue probability learning: The case of pilot
167	2013 Miron-Shatz, Diener, Doniger, Moore and Saphire-B	Charting the internal landscape: Affect associated with thoughts about major life domains
168	2013 Klos	Myopic loss aversion: Potential causes of replication failures
169	2013 Bleichrodt, Potter van Loon, Rohde and Wakker	A Criticism of Doyle's survey of time preference: A correction regarding the CRDI and CADl families
170	2013 Kim, Schnall, Yi and White	Social distance decreases responders' sensitivity to fairness in the ultimatum game
171	2013 Piazza and Landy	"Lean not on your own understanding": Belief that morality is founded on divine authority and
172	2013 Miller, DeKay, Stone and Sorenson	Assessing the sensitivity of information distortion to four potential influences in studies
173	2013 Hysenbelli, Rubaltelli and Rumiati	Others' opinions count, but not all of them: anchoring to ingroup versus outgroup members'
174	2013 Schwartz, Yamagishi, Hirahara, Onishi, Barnes IV, R	Risk perception and risk attitudes in Tokyo: A report of the first administration of DOSPRT+M
175	2013 Orquin, Bagger and Mueller Loose	Learning affects top down and bottom up modulation of eye movements in decision making
176	2013 Birnbaum	True-and-error models violate independence and yet they are testable
177	2014 Goldstein and Rothschild	Lay understanding of probability distributions
178	2014 Ghazal, Cokely, and Garcia-Retamero	Predicting biases in very highly educated samples: Numeracy and metacognition
179	2014 Glöckner and Bröder	Cognitive integration of recognition information and additional cues in memory-based decisions
180	2014 Hilbig	On the role of recognition in consumer choice: A model comparison
181	2014 Zimerman, Shalvi, and Bereby-Meyer	Self-reported ethical risk taking tendencies predict actual dishonesty
182	2014 Gold, Colman, and Pulford	Cultural differences in responses to real-life and hypothetical trolley problems
183	2014 Lippi	Does menu design influence retirement investment choices? Evidence from Italian occupational
184	2014 Tian-Yi Hu, Xin-Wen Jiang, Xiaofei Xie, Xiao-Qin Ma	: Foreground-background salience effect in traffic risk communication
185	2014 Evans and Krueger	Outcomes and expectations in dilemmas of trust
186	2014 Dehghani, Carnevale and Gratch	Interpersonal effects of expressed anger and sorrow in morally charged negotiation
187	2014 Mumpower and McClelland	A signal detection theory analysis of racial and ethnic disproportionality in the referral
188	2014 Jekel, Glöckner, Bröder and Maydych	Approximating rationality under incomplete information: Adaptive inferences for missing cue
189	2014 Albaity, Rahman and Shahidul	Cognitive reflection test and behavioral biases in Malaysia
190	2014 Miron-Shatz, Hanoach, Doniger, Omer and Ozanne	Subjective but not objective numeracy influences willingness to pay for BRCA1/2 genetic testing
191	2014 Pulford and Gill	Good luck, bad luck, and ambiguity aversion
192	2014 Stanton, Reeck, Huettel and LaBar	Effects of induced moods on economic choices
193	2014 Royzman, Landy and Goodwin	Are good reasoners more incest-friendly? Trait cognitive reflection predicts selective moralization
194	2014 Ert, Creary and Bazerman	Cynicism in negotiation: When communication increases buyers' skepticism
195	2014 van 't Veer, Stel and van Beest	Limited capacity to lie: Cognitive load interferes with being dishonest
196	2014 Poon, Koehler and Buehler	On the psychology of self-prediction: Consideration of situational barriers to intended actions
197	2014 Ayal and Beyth-Marom	The effects of mental steps and compatibility on Bayesian reasoning

198	2014 Choplin and Wedell	How many calories were in those hamburgers again? Distribution density biases recall of
199	2014 Lee and Danileiko	Using cognitive models to combine probability estimates
200	2014 Levin, Bossard, Gaeth and Yan	The combined role of task, child's age and individual differences in understanding decision
201	2014 Shevchenko, von Helversen and Scheibehenne	Change and status quo in decisions with defaults: The effect of incidental emotions depends
202	2014 Jiang, Hu and Zhu	Introducing upfront losses as well as gains decreases impatience in intertemporal choices
203	2014 Caviola, Faulmüller, Everett, Savulescu and Kahane	The evaluability bias in charitable giving: Saving administration costs or saving lives?
204	2014 Attari, Krantz and Weber	Reasons for cooperation and defection in real-world social dilemmas
205	2014 Nordbye and Teigen	Responsibility judgments of wins and losses in the 2013 chess championship
206	2014 Mata and Almeida	Using metacognitive cues to infer others' thinking
207	2014 Eriksson and Strimling	Spontaneous associations and label framing have similar effects in the public goods game
208	2014 Avrahami, Kareev and Hart	Taking the sting out of choice: Diversification of investments
209	2014 Romm	An interpretation of focal point responses as non-additive beliefs
210	2014 Analytis, Kothiyal and Katsikopoulos	Multi-attribute utility models as cognitive search engines
211	2014 Keller, Kreuzmair, Leins-Hess and Siegrist	Numeric and graphic risk information processing of high and low numerates in the intuitive and
212	2014 Cornwell and Krantz	Public policy for thee, but not for me: Varying the grammatical person of public policy justifications
213	2014 Yeung	Framing effect in evaluation of others' predictions
214	2014 Svenson, Gonzalez and Eriksson	Modeling and debiasing resource saving judgments
215	2014 Garcia, Chen and Gordon	The letter versus the spirit of the law: A lay perspective on culpability
216	2014 Shlomi	Subjective integration of probabilistic information from experience and description
217	2014 Moyano-Díaz, Martínez-Molina and Ponce	The price of gaining: maximization in decision-making, regret and life satisfaction
218	2014 Kieslich and Hilbig	Cognitive conflict in social dilemmas: An analysis of response dynamics
219	2014 Liddell and Kruschke	Ostracism and fines in a public goods game with accidental contributions: The importance of
220	2014 Maaravi, Pazy and Ganzach	Winning a battle but losing the war: On the drawbacks of using the anchoring tactic in distributive
221	2014 Wieland, Sundali, Kimmelmeier and Sarin	Gender differences in the endowment effect: Women pay less, but won't accept less
222	2014 Nurek, Kostopoulou and Hagmayer	Predecisional information distortion in physicians' diagnostic judgments: Strengthening a leading
223	2014 Covey and Zhang	The effect of dynamic proximity cues on counterfactual plausibility
